

MPUG WHEEL®**CAPACITIES UP TO 1000 LBS**

MPUG

DESCRIPTION: Polyurethane tread mechanically bonded to a Polyolefin Hub

OPERATING TEMPERATURE: Minus 30F to 180F

HARDNESS: 95+/-5 Shore A

The MPUG features a Polyurethane Tread mechanically bonded to a Polyolefin Hub. This attractive design offers a resilient tread (95+/-5 Durometer Shore A) that provides greater load capacities than traditional rubber tired designs. This wheel shines in institutional related, health care, light industrial, pharmaceutical, and hotel/motel environments to name a few.

The MPUG is available with a number of bearings options to suit your application. Please consult Caster World for the best suited option.

**OPTIONS****OPERATING CHARACTERISTICS:**

- Puncture proof,
- Quiet rolling,
- Cushioned,
- Resilient,
- Excellent life expectancy,
- Low starting effort under load on uneven floors.

BEARING OPTIONS:

- "BB" – Ball Bearings
- "BBSS" – Stainless Steel Ball Bearings
- "RB" – Roller Bearing
- "RBC" – Caged Roller Bearing
- "DB" – Delrin Bearing

EXCELLENT FOR:

- Floor Protection
- Institutional Use
- Moist and Wet Environments
- Hotel & Food Service Equipment
